What is the theme of the little prince brainly

After being unceremoniously dropped by Paramount Pictures just days before it was set air on US silver screens, Netflix swooped in to save this much-anticipated animated movie (which was highly looked upon for the Best Animated Feature Award at the Oscars). With a star-studded voice cast that includes the likes of Marion Cotillard, Paul Rudd, Rachel McAdams, Jeff Bridges, James Franco, and Ricky Gervais, this timeless, heart-warming tale comes to life on 5 August.If you haven't read it yet, do yourself a favour and go pick up a copy of the book. There's a reason why this 80-page novel managed to sell more than 140 million copies worldwide. Antoine de Saint-Exupéry speaks some real truths in this novel, and you'll find yourself relating to the little prince in ways you never imagined. Even though it's a children's classic, I learned something new while re-reading it at different stages of growing up — from teenhood to adulthood.Here are some #lifelessons from The Little Prince that you can always fall back on:1. "It is only with the heart that one can see rightly; what is essential is invisible to the eye."There is only a finite number of things we can devote ourselves to while we're alive. Pick those carefully.2. "You become responsible, forever, for what you have tamed."The inextricable bond between you and the things you "tame" is, essentially, love. What binds the little prince and the fox is their friendship, and for that they will never really be apart or estranged. To be tamed, you need to break down your walls and open yourself up, which is why the little prince also said, "One runs the risk of crying a bit if one allows oneself to be tamed."3. "It's the time you spent on your rose that makes your rose so important."Whether it's your dreams or a loved one, don't let anyone diminish its importance. It means something to you because you have invested time and energy in it. YOU care, even if no one else gets its significance.4. "What makes the desert beautiful is that somewhere it hides a well."Saint-Exupéry was a pilot who had once been stranded in a desert, which inspired him to write that scene. Just like the desert hides a well that gives life to marooned pilots, there is a blessing in every setback we face or adversity we find ourselves in.5. "All grown-ups were once children ... but only few of them remember it."This is both nostalgic and sad. We are made up of memories and imagination and curiosity, but sometimes forget how to be a child again after being worn down by the daily grind.So, dear readers, I wish you laughter and stories and memories that shine vividly even as you step into new phases of your lives. I wish you a past that guides you, a present that you can revel in, and a future that you dream about with stars in your eyes.Share your favourite Le Petit Prince quotes with us in the Comments section, as well as your interpretations.[RELATED STORY: 7 Lessons from David Bowie about Love, Life and Owning Who You Are]Like what you just read? Features From lessons on kindness to caring for our environment, the messages in this enchanting fable are as important today as they ever were. The Little Prince has captured the hearts of readers around the world since he first appeared in 1943. Written by pilot Antoine de Saint-Exupéry while in America, the tale was inspired by his experiences in the French Air Force. On the surface it's a simple story, but this little prince is as wise as they come and his messages of compassion and goodwill continue to endure. Here are seven life lessons we can learn from this enchanting tale, as told through quotes. 1. Don't be too fond of numbers 'Grown-ups are very fond of numbers. When you tell them about a new friend, they never ask you the kind of questions that should be asked, such as: "What kind of voice does he have?" "What are his favourite games?" "Does he collect butterflies?" Instead they ask: "How old is he? How much money does his father earn?" They really do imagine this is the best way to discover what sort of person he is!' 2. Look after the planet "It's a just a question of self-discipline," the little prince explained later. "First thing in the morning you look after yourself, you brush your teeth and wash your face, don't you? Well, the second thing you must do is to look after the planet." 3. Don't judge others by their words, but by what they do "[My rose] filled me with her fragrance, she had brought joy to my life. I should never leave her. I should have recognised what a sensitive sweet soul there was under all her rather silly games." 4. Relationships make life worth living "What exactly does 'tamed' mean?" "Well, it's something too often forgotten," said the fox. "I suppose it means: to make some kind of relationship." "Relationship?" "Yes," said the fox. "I'll explain. To me, you are just a just a little boy like any other, like a hundred thousand other little boys. I have no need of you and you have no need of me. To you I am a fox like any other, like a hundred thousand other foxes. But if you tame me, you and I, we will have created a relationship, and so we will need one another. You will be unique in the world for me... If you were to tame me, my whole life would be so much more fun. I would come to know the sound of your footstep, and it would be different from all the others. At the sound of any other footstep I would be down in my hole in the earth as quick as you like. But your footstep would be like music to my ears, and I would come running up out of my hole, quick as you like." 5. The important things in life you cannot see with your eyes, only with your heart 'Once the little prince fell asleep, I picked him up in my arms and set off on my way again. I was so moved as I walked. It seemed to me that I was carrying in my arms the most delicate of treasures, that there could be nothing more fragile on the whole Earth. In the light of the moon I looked down at this pale forehead, those closed eyes, those locks of his that trembled in the wind: "What I am seeing," I thought, "is no more than the shell. What is truly important I cannot see." 6. It is the time you give to something that makes it precious 'I lifted the bucket to his lips. He drank, his eyes closed. Then I drank. It was like a feast of water. This was not ordinary food of course, but it might just as well have been. The sweetness of this water was born from the long walk under the stars, from the song of the pulley, and for the effort of pulling up that bucket. It made me feel good, made me happy, as a present does.' 7. And finally, remember to look up at the stars "Stars mean different things to different people. For travellers, stars tell them where they are, where they are going. For others, they are just little lights in the sky. For scholars, they are the world of the unknown, yet to be discovered and understood. For my businessman, they are gold. But all stars stay silent. And you? No one else in the world will see the stars as you do... For you, and only for you, the stars will always be laughing."
